Hi Bonnie:

This is what I've just received from Fisheries and Oceans Canada as I just told you about on your voicemail. This was sent to me right after I received a phone call from Lilia of the FOC. She described this as a "letter of direction" to be forwarded to the LPRCA. She also said clearance from the FOC is not required. Please review this and let me know if you have any concerns or questions and how I proceed from here.

Subject: RE: 20-HCAA-01785 DFO Request for Review

Dear Gerry Goddard:

Subject: Raised Walkway, Black Creek, Norfolk County (20-HCAA-01785) – Implementation of Measures to Avoid and Mitigate the Potential for Prohibited Effects to Fish and Fish Habitat

The Fish and Fish Habitat Protection Program (the Program) of Fisheries and Oceans Canada (DFO) received your proposal on August 31, 2020. We understand that you propose to:

- Install a raised walkway to existing dock on Black Creek.
- Conduct no in water works.
- Increase the footprint below the high water mark <1m².

We understand that no aquatic species listed under the Species at Risk Act may use the area in the vicinity of where your proposal is to be located.

Our review considered the following information:

- Request for Review form and associated documents.

Your proposal has been reviewed to determine whether it is likely to result in:

- the death of fish by means other than fishing and the harmful alteration, disruption or destruction of fish habitat which are prohibited under subsections 34.4(1) and 35(1) of the *Fisheries Act*;
- effects to listed aquatic species at risk, any part of their critical habitat or the residences of their individuals in a manner which is prohibited under sections 32, 33 and subsection 58(1) of the *Species at Risk Act*; and,
- the introduction of aquatic species into regions or bodies of water frequented by fish where they are not indigenous, which is prohibited under section 10 of the *Aquatic Invasive Species Regulations*.

 *Please note:* The aforementioned impacts are prohibited unless authorized under their respective legislation and regulations. Provided that the plans are implemented in the manner, and during the timeframe described, the Program is of the view that your proposal will not require an authorization under the *Fisheries Act*, the *Aquatic Invasive Species Regulations* or the *Species at Risk Act*. Additional information on measures to protect fish and fish habitat can be found in the attached document.

Should your plans change or if you have omitted some information in your proposal, further review by the Program may be required. Consult our website (<http://www.dfo-mpo.gc.ca/pnw-ppe/index-eng.html>) or consult with a qualified environmental consultant to determine if further review may be necessary. It remains your responsibility to remain in compliance with the *Fisheries Act*, and the *Species at Risk Act* and the *Aquatic Invasive Species Regulations*.

It is also your *Duty to Notify* DFO if you have caused, or are about to cause, the death of fish by means other than fishing and/or the harmful alteration, disruption or destruction of fish habitat. Such notifications should be directed to FisheriesProtection@dfo-mpo.gc.ca or 1-855-852-8320.

We recommend that you notify this office at least 10 days before starting your project and that a copy of this letter be kept on site while the work is in progress. It remains your responsibility to meet all other federal, territorial, provincial and municipal requirements that apply to your proposal.

If you have any questions with the content of this letter, please contact Sarah Stewart by email at wimailhtml:sarah.stewart@dfo-mpo.gc.ca%20. Please refer to the file number referenced above when corresponding with the Program.

Yours sincerely,

Sarah Stewart
