Re: SP-27/06 Murray McLaughlin/ Voth Sales

The Public Works and Environmental Services Department has conducted an inspection of the site following our meeting on September 18 and wish to note that the site has not been constructed according to the approved site plan. The construction access that was granted has yet to be closed and has in fact become the main access into the site. A driveway has been constructed from County Rd 13 directly into the site. The proposed main access from the south has not been constructed. It is not known if the site is completed at this time. Public Works is requesting the closure of the existing access to Rd. 13 and the construction of the main access as per the approved plan. If this is not to be the case, then Public Works is requesting a revised site plan be submitted for comment as soon as possible.
