Secretary-Treasurer, Committee of Adjustment

Re: Consent Applications
169 Dalton Road (Delhi), 750 Gibraltar Street (Delhi), 724 James Street (Delhi)
peopleCare Inc.

Dear Committee Members:

On behalf of our client, peopleCare Inc., GSP Group is pleased to submit the enclosed applications to the Committee of Adjustment in relation to development proposed on the property currently known by the municipal address of 750 Gibraltar Street in Delhi (the "Subject Property"). A pre-submission consultation meeting regarding these applications was held on March 1, 2023.

The overall purpose of the applications being submitted is to create a new lot (to be assigned the civic address of 173 Dalton Road) for the development of a two-storey, 128-bed long-term care facility. peopleCare Inc. is proposing to build this new facility to replace the existing long-term care facility on the Subject Property, which was constructed in the mid-1980s. A Site Plan Application regarding the proposed development was submitted to Norfolk County on March 17, 2023.

The enclosed applications consist of three Consent Applications and one Minor Variance Application, for the following purposes:

- a consent for a lot boundary adjustment (hereafter referred to as "Consent #1") for the purpose of severing a portion of 169 Dalton Road and adding it to the parcel currently known as 750 Gibraltar Street;
- a consent to sever the southerly portion of 750 Gibraltar Street (hereafter referred to as "Consent #2");
- a consent to grant an 8-metre-wide easement over the lot known municipally as 724 James Street (hereafter referred to as "Consent #3") to provide the proposed long-term care facility with municipal water services; and

- a minor variance to address a deficiency in the number of parking spaces provided on the lot known as 169 Dalton Road.

Payment of the required fees for the applications listed above has been provided in the form of two cheques, sent under separate cover, each in the amount of \$3,089.00 payable to Norfolk County, along with further payments of \$3,089.00 (No. BNPL2023116) and \$1,711.00 (No. ANPL2023120) by credit card, made separately by the applicant.

Each of the three Consent Applications is accompanied by a preliminary drawing showing the dimensions of each existing lot and the setbacks to existing buildings, as well as illustrating the area to be added to 750 Gibraltar Street by Consent #1, the area to be severed by Consent #2, and the easement requested through Consent #3. These preliminary drawings are provided on the understanding that any consents given will be conditional on the submission of a plan of survey to confirm property boundaries and all setbacks.

In consideration of the somewhat complex nature of the applications being submitted, a table has been provided below to summarize the current and proposed areas for the lots involved:

Municipal Address	Current Lot Area	Proposed Final Lot Area
169 Dalton Road	8,082.6 m ²	2,231.5 m ²
173 Dalton Road ^(a)	---	12,394.2 m ²
750 Gibraltar Street	25,400.5 m ²	18,857.4 m ²
724 James Street	2,188.2 m ²	2,188.2 m ²

^(a)Address to be assigned to the lot created by Consent #2.

Consent #1 (Boundary Adjustment)

The purpose of Consent #1 is to sever approximately 5,851.1 m² of land from the lot known municipally as 169 Dalton Road and to add the severed land to the existing lot known municipally as 750 Gibraltar Road, thereby increasing that lot's area to approximately 31,251.6 m².

The lot known as 169 Dalton Road is occupied by an existing two-storey medical centre with a building footprint of approximately 240 m². The property is adjacent to three other lots: 750 Gibraltar Street; 165 Dalton Road, occupied by a detached dwelling; and 161–163 Dalton Road, occupied by a trucking terminal.

Off-street parking for the existing medical centre is currently provided in a gravel parking lot on the north and east sides of the building. As the existing parking area has no pavement markings, the Site Information provided in response to Question No. 1 in Section C of the application form gives

“N/A” for existing parking facilities. The estimated number of parking spaces required for the existing medical centre is based on the total area occupied by the building ($240 \text{ m}^2 \times 2 \text{ storeys} = 480 \text{ m}^2$, which at a rate of 1 parking space per 15 m^2 requires a minimum of 32 spaces). The number of parking spaces provided on the property at 169 Dalton Road is the subject of the Minor Variance Application, discussed in further detail below.

Consent #2 (Consent to Sever)

The purpose of Consent #2 is to create a new lot by severing approximately $12,394.2 \text{ m}^2$ from the lot currently known as 750 Gibraltar Road. The portion to be severed includes the $5,851.1 \text{ m}^2$ of land added by way of Consent #1. The lot created is to be assigned the civic address of 173 Dalton Road, while the lot retained (with an area of approximately $18,857.4 \text{ m}^2$) will continue to be known municipally as 750 Gibraltar Road.

The lot created will serve as the site for the proposed long-term care facility. This proposed development is the subject of a Site Plan Application that was submitted to Norfolk County on March 17, 2023.

Consent #3 (Easement)

The third application being made to the Committee requests an easement over the property known as 724 James Street, in favour of the lot to be known as 173 Dalton Road, to provide the proposed long-term care facility with municipal water services by connecting to the watermain beneath James Street. This connection will be used only to provide the proposed new facility with municipal water services, and will not be used to service the existing facility or to provide services to any other properties in the future.

The requested easement is 8 metres wide and runs along the southerly boundary of the property between James Street and the lot created by Consent #2. (The lot to be created includes a small “tab” at the northeasterly corner to accommodate the servicing infrastructure.) The easement will not affect the existing building on the property.

Minor Variance

The three Consent Applications described above are accompanied by a fourth application for a Minor Variance to provide relief from the number of parking spaces required for the medical centre located at 169 Dalton Road.

Section 4.9.dd of the County’s Zoning By-law (No. 1-Z-2014) requires that a medical or dental clinic provide 1 parking space for every 15 square metres of usable floor area. As the existing two-storey building occupies approximately 240 m^2 , we have estimated the required amount of parking at 32 spaces. As shown on the “Parking Concept” drawing that accompanies the Minor Variance Application, the placement of the existing building on the lot provides enough space for 17 spaces:

because of where the existing building is situated, there is not enough space for the required number of parking spaces at the required minimum dimensions of 3 m x 5.8 m while also providing a two-way access aisle at the required minimum width of 7.3 m.

It should be noted that our estimate of 32 parking spaces is based on the total area on the site occupied by the existing building, and is very likely higher than the actual number of spaces that will be required. The minimum requirement in Section 4.9.dd of the Zoning By-law is based on the *usable* floor area, which is defined in Section 2.170 as “the total area of all floors of a building, outdoor patio or cafe, or dwelling unit,” including hallways, aisles, and stairways within a unit or suite but not areas “occupied by a common area in a multi-tenant building including but not limited to a public stairwell, public or shared corridor and lobby.”

Thus, while the relief requested by this application is for a deficiency of 15 parking spaces, the actual deficiency will most likely be lower. Our estimate of 32 parking spaces is deliberately conservative, in the absence of more detailed information regarding the interior layout of the building on the property.

The four applications being submitted to the Committee, whose overall purpose is to facilitate development within an existing settlement area, are consistent with the Provincial Policy Statement, 2020, particularly with regard to the efficient use of land and infrastructure and with respect to the provision of a full range of housing options “to meet the social, health, economic and well-being requirements of current and future residents, including special needs requirements,” as directed in Policy No. 1.4.3.b.

We therefore respectfully request that the enclosed applications be accepted and circulated for review. Should you have any questions about this submission, or should you require anything further, please do not hesitate to contact me.

Yours truly,
GSP Group Inc.

Committee of Adjustment Application to Planning Department

Complete Application

A complete Committee of Adjustment application consists of the following:

1. A properly completed and signed application form (signature must on original version);
2. Supporting information adequate to illustrate your proposal as listed in **Section H** of this application form (plans are required in paper copy and digital PDF format);
3. Written authorization from all registered owners of the subject lands where the applicant is not the owner as per Section N; and,
4. Cash, debit or cheque payable to Norfolk County in the amount set out in the Norfolk County User Fees By-Law.
5. The completed application and fees are to be mailed to the attention of **Secretary Treasurer – Committee of Adjustment**: 185 Robinson Street, Suite 200, Simcoe, ON N3Y 5L6 or email your application committee.of.adjustment@norfolkcounty.ca. Make sure submissions are clearly labelled including address, name, and application type. Failure to do so may impact the timing of your application.

The above listed items are required to ensure that your application is given full consideration. An incomplete or improperly prepared application will not be accepted and may result in delays during the processing of the application. This application must be typed or printed in ink and completed in full.

Please review all of the important information summarised below.

Before your Application is Submitted

A pre-consultation meeting is not usually required for Committee of Adjustment applications; however, discussion with Planning Department staff prior to the submission of an application is **strongly encouraged**. The purpose of communicating with a planner **before** you submit your application is: to review your proposal / application, to discuss potential issues; and to determine the required supporting information and materials to be submitted with your application before it can be considered complete by staff. You might find it helpful to retain the services of an independent professional (such as a registered professional planner) to help you with your application. Information about the Official Plan and Zoning By-law can be found on the County website: www.norfolkcounty.ca/planning

After Your Application is Submitted

Once your payment has been received and the application submitted, in order for your application to be deemed complete all of the components noted above are required.

Incomplete applications will be identified and returned to the applicant. The *Planning Act* permits up to 30 days to review and deem an application complete.

Once your application has been deemed complete by the Planning Department, it is then circulated to public agencies and County departments for review and comment. A sign is also provided that is required to be posted on the subject lands that summarizes the application and identifies the committee meeting date. The comments received from members of the community will be included in the planning report and will inform any recommendations in relation to the application.

If the subject lands are located in an area that is regulated by either the Long Point Region Conservation Authority or by the Grand River Conservation Authority an additional fee will be required if review by the applicable agency is deemed necessary. A separate cheque payable to the Long Point Region Conservation Authority or the Grand River Conservation Authority is required in accordance with their fee schedule at the same time your application is submitted.

Additional studies required as part of the complete application shall be at the sole expense of the applicant. In some instances peer reviews may be necessary to review particular studies and that the cost shall be at the expense of the applicant. The company to complete the peer review shall be selected by the County.

If the application is withdrawn prior to the circulation to commenting agencies, the entire original fee will be refunded. If withdrawn after the circulation to agencies, half the original fee will be refunded. No refund is available after the public meeting and/or approval of application.

Notification Sign Requirements

Planning Department staff may post a notification sign on your property in advance of the public meeting on your behalf. Please keep this sign posted until you have received a notice in the mail indicating that the Secretary Treasurer received no appeals. However, it is the applicant's responsibility to ensure that the sign is correctly posted within the statutory timeframes, according to the *Planning Act*. Failure to post a sign in advance of the public meeting in accordance with statutory requirements will impact the timing of your application at the Committee of Adjustment meeting. Applicants are responsible for removal of the sign following the appeal period. The signs are recyclable and can be placed in your blue box.

D. All Applications: Previous Use of the Property

1. Has there been an industrial or commercial use on the subject lands or adjacent lands? ☒ Yes ☐ No ☐ Unknown

If yes, specify the uses (for example: gas station, or petroleum storage):

The adjacent property (161–163 Dalton Road) contains a truck terminal.

2. Is there reason to believe the subject lands may have been contaminated by former uses on the site or adjacent sites? ☐ Yes ☐ No ☒ Unknown

3. Provide the information you used to determine the answers to the above questions:

A preliminary assessment has found no contamination on the lands to be severed and added to 750 Gibraltar Street. It is possible that the lands to be retained by 169 Dalton Road have been contaminated, but no development works are being proposed for those lands at this time.

4. If you answered yes to any of the above questions in Section D, a previous use inventory showing all known former uses of the subject lands, or if appropriate, the adjacent lands, is needed. Is the previous use inventory attached? ☐ Yes ☒ No (See response to No. 3 above)

E. All Applications: Provincial Policy

1. Is the requested amendment consistent with the provincial policy statements issued under subsection 3(1) of the *Planning Act*, R.S.O. 1990, c. P. 13? ☒ Yes ☐ No

If no, please explain:

2. It is owner's responsibility to be aware of and comply with all relevant federal or provincial legislation, municipal by-laws or other agency approvals, including the Endangered Species Act, 2007. Have the subject lands been screened to ensure that development or site alteration will not have any impact on the habitat for endangered or threatened species further to the provincial policy statement subsection 2.1.7? ☐ Yes ☒ No

If no, please explain:

A review of potential endangered or threatened species or species at risk is underway (as part of the related Site Plan Application) but has not yet been completed.

3. Have the subject lands been screened to ensure that development or site alteration will not have any impact on source water protection? ☒ Yes ☐ No

If no, please explain:

Note: If in an area of source water Wellhead Protection Area (WHPA) A, B or C please attach relevant information and approved mitigation measures from the Risk Manager Official.

4. All Applications: Are any of the following uses or features on the subject lands or within 500 metres of the subject lands, unless otherwise specified? Please check boxes, if applicable.

Livestock facility or stockyard (submit MDS Calculation with application)

☐ On the subject lands or ☐ within 500 meters – distance _____

☐ On the subject lands or ☐ within 500 meters – distance _____

F. All Applications: Servicing and Access

1. Indicate what services are available or proposed:

Water Supply

☒ Municipal piped water

☐ Communal wells

☐ Individual wells

☐ Other (describe below)

Sewage Treatment

☒ Municipal sewers

☐ Communal system

☐ Septic tank and tile bed in good working order

☐ Other (describe below)

Storm Drainage

☐ Storm sewers

☐ Open ditches

☒ Other (describe below)

No existing storm sewer connection.

2. Existing or proposed access to subject lands:

☒ Municipal road

☐ Provincial highway

☐ Unopened road

☐ Other (describe below)

Name of road/street:

Existing: Dalton Road / Proposed: Dalton Road (lot retained) & Gibraltar Street (land severed)

G. All Applications: Other Information

1. Does the application involve a local business? ☒ Yes ☐ No

If yes, how many people are employed on the subject lands?

2. Is there any other information that you think may be useful in the review of this application? If so, explain below or attach on a separate page.

Please see cover letter accompanying this application.

H. Supporting Material to be submitted by Applicant

In order for your application to be considered complete, folded hard copies (number of paper copies as directed by the planner) and an **electronic version (PDF) of the site plan drawings, additional plans, studies and reports** will be required, including but not limited to the following details:

1. Concept/Layout Plan
2. All measurements in metric
3. Existing and proposed easements and right of ways
4. Parking space totals – required and proposed
5. All dimensions of the subject lands
6. Dimensions and setbacks of all buildings and structures
7. Location and setbacks of septic system and well from all existing and proposed lot lines, and all existing and proposed structures
8. Names of adjacent streets
9. Natural features, watercourses and trees

In addition, the following additional plans, studies and reports, including but not limited to, **may** also be required as part of the complete application submission:

- ☐ On-Site Sewage Disposal System Evaluation Form (to verify location and condition)
- ☐ Environmental Impact Study
- ☐ Geotechnical Study / Hydrogeological Review
- ☐ Minimum Distance Separation Schedule
- ☐ Record of Site Condition

Your development approval might also be dependent on Ministry of Environment Conservation and Parks, Ministry of Transportation or other relevant federal or provincial legislation, municipal by-laws or other agency approvals.

All final plans must include the owner's signature as well as the engineer's signature and seal.

I. Transfers, Easements and Postponement of Interest

The owner acknowledges and agrees that if required it is their solicitor's responsibility on behalf of the owner for the registration of all transfer(s) of land to the County, and/or transfer(s) of easement in favour of the County and/or utilities. Also, the owner further acknowledges and agrees that it is their solicitor's responsibility on behalf of the owner for the registration of postponements of any charges in favour of the County.
