Subject: Norfolk County request of Services brief

Hi Andrew,

As per our discussions of adding two additional residential lots which would use services from McCall Crescent in Simcoe:

The sanitary flows from severing the property will be very minimal or otherwise negligible.

I also don't see any issues with the water supply as these properties are simply residential and won't require significant water intake.

Subject: Norfolk County request of traffic brief

Andrew,

According to the Institute of Transportation Engineers (ITE) Trip Generation Manual (11th Edition), your proposed development will generate (at most) two trips in the AM peak hour and two trips in the PM peak hour. Since this additional site generated traffic is so nominal, its impact will be effectively imperceptible.

Therefore, it is the engineer's opinion that the proposed 2-unit residential development will not adversely impact area traffic operations.

Warm regards,
