COMMUNITY PLANNING COMMENTS

The applicant is proposing to sever a parcel of vacant land and add it to an adjacent vacant residential parcel. The purpose of this application is to create a more regularly shaped building lot.

Provincial Policy Statement, 2014 (PPS)

Section 1.1.4.2 of the PPS states, "In rural areas, rural settlement areas shall be the focus of growth and development and their vitality and regeneration shall be promoted."

The applicant is proposing to reconfigure three existing lots within the Hamlet of Walsh. The new lot configurations will result in more regularly shaped lots (rectangles) instead of the current oddly-shaped parcels. The subject application is consistent with the policies of the PPS.

Norfolk County Official Plan

The subject lands are designated "Hamlet" in the Norfolk County Official Plan.

Section 4.5.1(a) states, "Low density residential on lots suitably sized to accommodate servicing systems shall be the main permitted use."

Section 9.6.3.2, General Consent to Sever Land Policies, states, "(i) Subject to the specific policies of this Plan, consents may be permitted for the purposes of making lot boundary corrections, for the purposes of granting easements, for conveyances and consolidations, and other such administrative or technical matters, provided that such matters are minor in nature."

The subject application proposes to make a boundary adjustment in order to create a better shape for a residential building lot. This matter is technical in nature. The subject application complies with the intent of the Official Plan.

Norfolk County Zoning By-Law 1-Z-2014

The subject lands are zoned "Hamlet Residential (RH)" in the Zoning By-law. The lands being boundary adjusted are zoned RH with Special Provision 14.240. This provision states, "In lieu of the corresponding provision in the RH Zone, the following shall apply: a) minimum lot frontage – 12.16 metres."

The Special Provision must be amended to reflect the new minimum lot frontage and minimum lot area. It also must be extended to the entirety of the newly created lot. This has been included as a condition of consent.

Other Information

Endangered and threatened species and their habitat are protected under the provinces Endangered Species Act, 2007 (ESA). The Act prohibits development or site alteration within areas of significant habitat for endangered or threatened species without demonstrating that no negative impacts will occur. The Ministry of Natural Resources (MNR), Aylmer District provides the service of responding to species at risk information requests and project screenings. The applicant has been directed to discuss the proposed activity and have their project screened with MNR.

Please be advised that it is owner's responsibility to be aware of and comply with all relevant federal or provincial legislation, municipal by-laws or other agency approvals.

Conclusion

It is the professional opinion of Community Planning staff that the subject application is consistent with the policies of the PPS and conforms to the intent of the Official Plan regarding boundary adjustments. Staff support this application and recommend that it be approved, subject to the attached conditions.
