**Union Gas** – No comments received.

#### **REGARD FOR PUBLIC INPUT**

No public input has been received for this application and therefore was not considered as part of the recommendation.

#### **COMMUNITY PLANNING COMMENTS**

The applicant is proposing to sever a parcel of vacant land and add it to a farm parcel to the east. The purpose of this is to create a more regularly shaped retain area, and to maintain farm access and possible use by the neighbouring church in the future.

#### **Provincial Policy Statement, 2014 (PPS)**

Section 1.1.4.2 of the PPS states, "In rural areas, rural settlement areas shall be the focus of growth and development and their vitality and regeneration shall be promoted."

The applicant is proposing to reconfigure three existing lots within the Hamlet of Walsh. The new lot configurations will result in more regularly shaped lots (rectangles) instead of the current oddly-shaped parcels. The subject lands will be used to access an adjacent farm parcel. The subject application is consistent with the policies of the PPS.

#### **Norfolk County Official Plan**

The subject lands are designated "Hamlet" in the Norfolk County Official Plan.

Section 4.5.1(a) states, "Low density residential on lots suitably sized to accommodate servicing systems shall be the main permitted use."

Section 9.6.3.2, General Consent to Sever Land Policies, states, "(i) Subject to the specific policies of this Plan, consents may be permitted for the purposes of making lot boundary corrections, for the purposes of granting easements, for conveyances and consolidations, and other such administrative or technical matters, provided that such matters are minor in nature."

The proposed boundary adjustment is for a minor technical matter which will provide farm access and may possibly be used in the future in conjunction with the church, through another boundary adjustment. The lands will maintain flexibility in this regard. The subject application complies with the policies of the Official Plan.

#### **Norfolk County Zoning By-Law 1-Z-2014**

The subject lands are zoned "Hamlet Residential" with Special Provision 14.240 in the Zoning By-law. This provision states, "In lieu of the corresponding provision in the RH Zone, the following shall apply: a) minimum lot frontage – 12.16 metres."

The Special Provision must be removed from the subject lands as it will no longer be relevant. This has been included as a condition of consent. Aside from this, the subject application complies with the provisions of the Zoning By-law.

#### **Other Information**

Endangered and threatened species and their habitat are protected under the provinces Endangered Species Act, 2007 (ESA). The Act prohibits development or site alteration within areas of significant habitat for endangered or threatened species without demonstrating that no negative impacts will occur. The Ministry of Natural Resources (MNR), Aylmer District provides the service of responding to species at risk information requests and project screenings. The applicant has been directed to discuss the proposed activity and have their project screened with MNR.

Please be advised that it is owner's responsibility to be aware of and comply with all relevant federal or provincial legislation, municipal by-laws or other agency approvals.

#### **Conclusion**

It is the professional opinion of Community Planning staff that the subject application is consistent with the policies of the PPS and conforms to the intent of the Official Plan regarding boundary adjustments. Staff support this application and recommend that it be approved, subject to the attached conditions.
